

All Saints Mission Statement

Our Christian vision, motto and values are expressed through our academy's mission statement.

- Our mission for the future of every child in our care is to be happy, confident learners that reach their full potential. They have respect for others and become valued members of the community.
- By promoting academic excellence through a stimulating, challenging and enriched curriculum our children will learn to become adaptable and resilient learners.
- We will continue to provide exciting but safe and secure environments where the children explore and experiment in order to instil self-confidence and independence for lifelong learning.
- Love, respect and kindness continues to be at the heart of everyday life at All Saints. This ethos is embedded through daily collective worship, classroom reflection areas and acts of kindness so that our children learn to become unique and valued members of society.
- Through maintaining close positive links with our local church and wider community in shared collaborative events our children develop as conscientious, thoughtful citizens that promote environmental stewardship through global awareness projects.
- We will provide opportunities both in and out of the classroom in order to nurture the skills, gifts and talents the children need to become fully rounded individuals in today's society.
