

Dear Parents,

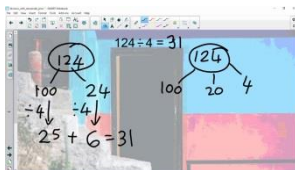

During maths lesson this week your child has been introduced to dividing 2 and 3 digit numbers by a 1 digit number. Whilst the progress was great, s/he would benefit from a little consolidation work in this area.

Your child has chosen their homework questions and these are an extension of the work completed earlier this week. Please could you work with them to support with their chosen methods? The two methods introduced were the 'bus stop method' and the 'partitioning method'. Links to video clips that demonstrate these methods can be found below;

Bus stop method

<https://www.youtube.com/watch?v=Zw80VcCMdpM>

Partitioning (link picture)

<https://www.youtube.com/watch?v=7zvs8tuTU4c>

(This one also shows another method, part whole, I have not shown the children this so it may confuse. Possibly avoid after the partition method shown.)

Please find an online copy in the letters section of our website page (for ease of link). Please don't hesitate to ask if you have any questions.

Mrs Manby
