

Where on Earth?

	Topic words
Hot	Having a relatively high temperature
Cold	A low or relatively low temperature.
Freezing	When the temperature falls to 0 degrees. Turning liquid into a solid.
Melting	Turning from a solid into a liquid when heated.
Weather	The state of the atmosphere with respect to heat or cold, wetness or dryness, calm or storm, clearness or cloudiness
Seasons	One of the four distinct periods of the year: spring, summer, autumn, or winter.
Habitat	A habitat is the home of an animal or a plant. Almost every place on Earth, from the hottest desert to the coldest polar region is a habitat for animals and plants.

By the end of this topic.....

- * I will be able to distinguish between hot and cold.
- * I will be able to name different types of weather.
- * I will be able to match clothes to wear in different types of weather.
- * I will understand what a habitat is and sort animals into hot and cold habitats.
- * I will begin to name the four seasons.

Curriculum Links

Understanding the World - The World 30-50 months - Comments and asks questions about aspects of their familiar world such as the place where they live or the natural world.

Talks about why things happen and how things work.

Shows care and concern for living things and the environment ELG - Children know about similarities and differences in relation to places, objects, materials and living things. They talk about the features of their own immediate environment and how environments might vary from one another. They make observations of animals and plants and explain why some things occur, and talk about changes.
